

## **AAUW WA State Legislative Update 2/25/22**

### **Week 7**

#### **MESSAGE FROM AAUW-WA PUBLIC POLICY TEAM**

Thanks to everyone who Signed In PRO on AAUW bills last week. Members from 17 branches participated, representing 26 districts. What a great advocacy response!

*Check out our lobbyist's weekly summary below for details about the bills and their progress.*

#### **Actions you can take this week:**

Email your Legislators and ask them to make sure these bills make it to the floor for a vote.

#### **Message for Representatives:**

Please support SB 5649 Changes to the Paid Family and Medical Leave and SB 5761 Wage and Salary Transparency.

#### **Message for Senators:**

Please support HB 1659 Affordable Higher Education and HB 1851 Affirm WA Access to Abortion Act.

## **Report From: Nancy Sapiro – AAUW WA Lobbyist**

### **Week 7**

Budget proposals were released this week as the 2022 session heads into the homestretch. With a continued strong economic climate, both the House and Senate proposed substantial new spending, making use of federal resources and increased state revenue, prioritizing pandemic response, behavioral health, homelessness, and housing. The Senate proposed \$4.6 billion in new spending, which would bring the total two-year state budget to \$63.7 billion. The House proposed \$6.2 billion in new spending, which would bring the total budget to roughly \$65 billion. It is expected that both houses will pass their respective budgets within the next few days and the work to reconcile differences will continue until the Legislature adjourns on March 10.

Looking ahead ... next week will be the final two cutoff deadlines before the last day of session, better known as Sine Die! Monday, February 28 is fiscal committee cutoff from the opposite house, and Friday, March 4 is the opposite house cutoff.

The updates below capture where AAUW's priority bills are as of February 25.

## **AAUW-WA 2022 LEGISLATIVE PRIORITIES**

**Increasing the Availability of sexual assault nurse examiners education in rural and underserved communities – [HB 1622](#)**, sponsored by Rep Mosbrucker, would require the WA State University College of Nursing to establish a sexual assault nurse examiner (SANE) online and clinical training program, and a regional SANE leader pilot program. Of note, currently the only entity that offers SANE training in the state is Harborview Medical Center in Seattle.

**UPDATE: The bill passed the House unanimously on January 26. The bill passed out of the Senate Higher Education and Workforce Development Committee on February 24 and is now in Rules.**

**Concerning Protections and Services for Indigenous Persons who are Missing Murdered or Survivors of Human Trafficking – [HB 1571](#)**, sponsored by Rep Mosbrucker, builds off legislation passed both in 2017 and 2018, addressing the ongoing tragedy of missing and indigenous persons. Information provided during the public hearing indicates that the indigenous population of WA makes up less than 2% of the population while at same time accounting for almost 80% of the MIP in this state. HB 1517 would create new protections and services for missing and indigenous persons including changes to the duties and responsibilities of coroners and medical examiners, creation of grant programs, and changes to the duties of law enforcement. **UPDATE: HB 1571 passed out of the House 98 to 0. It passed out of Senate Law and Justice on February 24 and is scheduled to move out of Ways and Means on Monday, February 28.**

**Affirm WA Access to Abortion Act – [HB 1851](#)** sponsored by Rep Thai, will ensure that qualified licensed health care providers can include abortion services in their practice. This legislation comes at a critical juncture when threats to abortion are intensifying across the country. Thirteen other states already recognize that certain advanced practice clinicians can safely and effectively provide abortion, and providers have already been doing so in Washington under the guidance of two Attorney General Opinions. Passing this legislation would remove legal ambiguity and ensure that providers are not unnecessarily prohibited from offering abortion care when it is within their existing scope of practice. The bill will also modernize the statute's language to be gender neutral and inclusive. HB 1851 passed out of the House on a vote of 55 to 40. **UPDATE: The bill moved out of Senate Health this week. It is ready to be taken up by the full Senate. Of note, the House added a Republican amendment which changed the gender-neutral language throughout the bill by inserting confusing gendered language that referred to "women and pregnant individuals" rather than just the term "pregnant individuals." The Senate Health Care committee removed this language from the bill, so that as it heads to the floor, the bill only uses the term "pregnant individual" throughout.**

**Changes to the Paid Family Leave – [SB 5649](#)**, sponsored by Senator Robinson, will update the state's PFML statute by making the following improvements: allowing people to apply up to 45 days in advance of an expected leave; extending family caregiving leaves up to 14 days after the death of the family member for whom the worker was providing care, or after the death of a newborn or stillborn child; allowing people to take medical leave during the first 6 weeks after giving birth without requiring additional medical certification; sunsetting the temporary exemption of workers covered by a collective bargaining agreement; and making public the list of employers with approved Voluntary Plans. The bill was modified substantially in policy committee. The Employment Security Department announced likely cash flow issues in the PFML trust fund in March or April, before the first quarter of payroll premiums come in at the end of April. They've asked for \$82 million to be made available from the state General Fund as they need funds to continuing paying benefits in a timely manner. The trust fund issue undermined the possibility for bipartisan consensus on the modest PFML improvement bill as originally drafted. The new version cuts most of those improvements and creates new accountability measures, including an actuarial study and audit of the PFML program administration. Advocates continue to work to try to get the substantive policy elements back into the bill. The bill passed the Senate **UPDATE: The bill passed the Senate on 42-7 vote. It came out of the House Labor Committee on February 22 and was heard on February 25 in Ways and Means. It will need to pass out of Ways and Means on February 28 to remain alive this session.**

**Providing Wage and Salary Information – [SB 5761](#)**, sponsored by Senator Randall, will expand upon current law, by requiring employers to disclose additional information in job postings. Specifically, when posting job openings, an employer would have to disclose the hourly or salary compensation, or a range of the compensation, and a general description of the benefits offered. The bill was heard in Senate Labor on January 17; it passed out of committee on a partisan vote on January 27. The bill passed out of the Senate on February 9. **UPDATE: A hearing was held in House Labor on February 18 and it moved out of committee on February 22. It is now in Rules.**

**Higher Education Affordability – [HB 1659](#)**, sponsored by Rep Slatter would make higher education more affordable and accessible for students. It expands the Washington College Grant (WCG) program by modifying the income eligibility thresholds and award levels. The bill will also allow for an additional annual stipend for expenses beyond tuition and fees such as books, lab fees, supplies, technology, transportation, housing, and childcare. The bill came out of the House on a vote of 83-15. **It was heard in Senate Higher Ed and will be heard in Ways and Means on February 26. It is scheduled for executive action on Monday February 28.**

#### **AAUW PRIORITY BILLS THAT DID NOT ADVANCE THIS SESSION**

**Keep Our Care Act – [SB 5688/HB 1809](#)**, sponsored by Senator Randall and Rep Simmons respectively, would ensure that health entity mergers and acquisitions improve, rather than

harm, access to affordable quality care. Our state has seen a proliferation of hospital mergers over the past 10 years, and they often have negatively impacted cost, quality, and access to necessary health care, particularly access to reproductive and end of life care. SB 5688 would give the AG's office the tools it needs to ensure that future health system mergers and other transactions improve access to care. Specifically, the bill would prohibit a health entity consolidation that diminishes access to affordable quality care and would ensure AG oversight of all mergers. It also would allow for community input through public notification of proposed consolidations and the opportunity for public input and comment. Unfortunately, despite the tremendous efforts of advocates, including many AAUW members, SB 5688 did not pass out of the Senate Law and Justice Committee and therefore the bill will not be advancing this session.

**Creating Teaching Endorsements in Computer Science – [SB 5389](#)**, sponsored by Senator Wellman, was introduced in the 2021 legislative session. In 2021, the bill passed out of its policy committee but didn't move out of Senate Ways and Means. The endorsement created by SB 5389 would allow current teachers to be qualified to teach computer science. These specialty endorsements will allow greater accessibility to computer science courses and skills to underserved communities. There was no hearing on SB 5389 in Ways and Means before fiscal cut-off and the bill is therefore not advancing this session.

**Creating programs to encourage sexual assault nurse examiner training – [HB 1621](#)**, sponsored by Rep. Mosbrucker, would require the Department of Health to establish a stipend program for licensed nurses training to become certified sexual assault nurse examiners (SANEs). The bill also requires DOH to establish a hospital grant program to increase access to certified SANEs for hospitals without sufficient access. [A sexual assault nurse examiner is a registered nurse specifically trained to provide evidentiary examinations of sexual assault victims. In addition to other services, SANEs provide medical assistance while also assessing, documenting, and preserving evidence for potential prosecutions.] HB 1621 is an attempt to address the acute problem of many counties not having SANE nurses available to offer services to sexual assault survivors. HB 1621 did not come to the floor before cut-off on February 15 and therefore the bill is dead.
